ORIGINAL CUT SWITCHGRASS

GMO FREE | PESTICIDE FREE

ABSORBENT: 25% more absorbent than raw straw.

BIOSECURITY: Sourced from Ontario Growers. Produced and stored in our biosecure facility.

ANIMAL HEALTH: Reduces animal exposure to harmful dust, mold, salmonella and other pathogenic organisms, improving animal health and comfort reducing stress.

MORE COVERAGE: Expands to 10 to 12 cubic feet.

CONVENIENCE: Easy to use, carry and store.

COMPOSTABLE: Forms a complete biological cycle that takes 100% from crops and returns the used material back to the soil as an excellent compost and organic enhancer.

ODOR REDUCTION: Reduces barn odor by trapping ammonia gasses in the layers of straw.

EMPLOYEE WELLNESS: Employees no longer have to breathe in the dust and mold. Light and easy to use.

RELIABLE SUPPLY: Livestock bedding is our business, not a by-product or an afterthought.

GOLDFIELDS is a renewable source and available on-time, when you need it. It composts in three months.
